---

## Professional Experience

### IT GRC/Cybersecurity

University of Calgary (*Calgary, Canada*)

AUGUST 2022 - PRESENT

- Performed lots of research and conducted multiple risk assessments for the university involving other departments and software.
- Aided in my personal big project of recovering status of follow ups involving previously conducted governance, risk treatments, and risk acceptances.
- Constantly active during our current large auditing period.
- Exposed to working in a professional corporate setting, collaborating with teams, and making a meaningful impact with each task accomplished.

### Deloitte IT and Health Desk Intern

Deloitte (*Lagos, Nigeria*)

JUNE 2022 - AUGUST 2022

- Participated in major projects and contributions towards the firm.
- Improved my skills and knowledge in hardware and software repair, as well as interface setup and reloading.
- Gained lots of exposure to other departments within the firm.
- Participated in a big onboarding project involving setting up laptops and equipment for 150+ new employees. I took upon a mini leadership role where I organized tasks and led onboarding for hires.

### Web Development Intern

Lotus Beta Analytics (*Lagos, Nigeria*)

JUNE 2021 - AUGUST 2021

- Engineered websites using web development frameworks such as UI/UX Design, HTML, CSS, and a little bit of JavaScript.
  - Tested work to check functionality, identify bugs, and correct issues.
  - Contributed to team drafts of documents and projects to aid web management.
-
